

## FADMA OBM 2016 AND BRICS FORUM 2016

Year 2016, CDMIA – China Die & Mold Industry Association is celebrating 30<sup>th</sup> anniversary. On this special occasion of 30<sup>th</sup> year of association, organized the Die & Mould China 2016, the 16<sup>th</sup> International Exhibition on Die & Mould Technology and Equipment, June 28<sup>th</sup> – July 1<sup>st</sup>, 2016 at Shanghai new

International Expo Center, China. Total 6 blocks of area is exhibited in total area of 30,000 square meters. Well known brand from China and overseas exhibited.

All key delegates participated in International Auto Mold Forum on 28<sup>th</sup> June 2016.

	Subject	Speaker	Remarks
1	Design for Manufacturing Efficiency	Mr Bruno Barthelmy, Global Director of Body Engineering, Ford USA	Efficient, safer, advanced material in design
2	How to realize True Synchronized Engineering in BIW Design	Mr Michael Gallagher, Global CEO, Forming Technologies Inc (Canada)	All experience have keyed into software and available
3	An overview of the US plastics Industry Sino-US Trade in Plastics	Mr Michael Taylor, VP of International affairs and Trade. The plastics Industry Trade Association (USA)	Data based presentation and explained the trend, driven by technology and marketing
4	Mold Standard concepts of the new understanding to reduce die manufacturing cost	Mr Tong Yaping, Senior Manager Stamping Planning Dept, Shanghai Volkswagen Automotive Co., Ltd	Standardized and save the material and space
5	Intelligent Mobility into the future	Mr Qiang Hong, Senior Research Scientist, Centre for Auto Research(CAR)(USA)	Automated and connected vehicles of future
6	Basque Auto Industry – Spain Mainstay Industry	Mr Mikel Yang, Chief representative, SPRI Shanghai representative office (Spain)	Body parts design and development
7	The development of German tool making & the advancement of 5-axis simultaneous milling	Mr Rainer Dangel, Mold making expert Germany, EACT Co.,Ltd (Germany)	Best practices
8	The Japanese Automotive Mold Manufacturers in China,	Mr Meng Qiang, VC, Kyoritsuiseiki (Dalian) Co.,Ltd (Japan)	Die casting dies upto 2500T
9	BATZ, Stamping Dies for Lightweight	Mr Ivan Aranburu Calvo, China Market Manager for Die Business, BATZ (Spain)	Lightweight body parts

CDMIA hosted members of FADMA – the Federation of Asian Die and Mould Associations, a regional group of die and mould manufacturers and precision engineering association. Across the Asia, 27 members across representing countries like India, Japan, China, Taiwan, Singapore, Malaysia, Singapore, Philippines and Korea participated in FADMA OBM 2016 meeting on 30<sup>th</sup> June 2016 and TAGMA India is represented in this event, from 28<sup>th</sup> to 30<sup>th</sup> June 2016.

CDMIA hosted members of ISTMA World –The international Special Tooling & Machining Association

is an international association representing 19 special tooling and machining associations throughout the world.

The First meeting of the ISTMA World BRICS Forum took place in Shanghai on 29<sup>th</sup> June. The ISTMA BRICS forum will gather industry representatives from Brazil (Abinefer), Russia (Chamber of Commerce), India (TAGMA), China (CDMIA) and South Africa (TASA) aiming to create and lead co-operation by its countries and institutions towards the development of tooling industry and the establishment of economic opportunities that result from the BRICS convention.

On 30<sup>th</sup> June 2016, had FADMA Office Bearers Meeting 2016 at Shanghai and review of the progress as a association and review to co-operate in increase of technical seminars and as well creating a list of specialist, subject matter expert in tooling.
